They aired an episode with such vile acts and language that I am not sure where to begin, however suffice it to say that if showing a depiction of a person committing Sodomy and murder using every bad language in the book is not enough, then to depict the person being sodomized as a presidential candidate.....enough is enough. Even though it says adult viewers only, you know that a certain percentage of under age viewers are watching that filth. I have contacted Viacom asking them to remove that program from the air and they should fire the writers. I would like a reply as to what action you are going to take against this company.

<https://consumercomplaints.fcc.gov/hc/en-us/articles/203700610-Satellite-Programming-Quick-Facts>

Thank you for contacting the FCC to share your concerns about broadcast program material that you find offensive. It is against federal law for a television or radio station to air obscene programming at any time, or to air indecent or profane material during the hours of 6 a.m. to 10 p.m. The FCC is charged with enforcing the law that governs the broadcast of such material.

For the FCC to consider whether a licensee has violated these requirements of the law, a complaint must relate to particular programming, rather than express a general opinion. To proceed on a complaint, the FCC must have information that includes the station that aired the programming material, the date and time of day of the broadcast, a recording, transcript or description of the material broadcasted. This will allow us to determine whether it is obscene, indecent or profane. Because your complaint does not provide all of this information, we cannot proceed further with regard to your

allegations. Accordingly, we must close your complaint.

Your views and concerns about program material are important to us. You may refile your complaint with this additional information. To expedite our consideration of your complaint, we recommend that you submit it via the FCC's online Consumer Help Center at consumercomplaints.fcc.gov.

We encourage you to convey your concerns, whether general or program-specific, directly to station management. This can be an effective method to influence a broadcast licensee's programming decisions.
